

UC ARTS DIGITAL LAB

Arts Digital Lab Seminar

Student Reflections

Summer 2023

This summer has been a busy one in the Arts Digital Lab, with eight students working in the Lab as Research Assistants, as Summer Scholars or on their own research. In this rapid-fire series of five-minute talks, students will reflect on the projects they've been working on. Coming from a wide range of disciplines and qualifications, each has brought a unique perspective to the Lab. Their descriptions of interesting data they've come across, skills they've acquired, and lessons they've learnt will give you an insight into the varied work of the ADL.

Friday 27 January, 1 – 2.30 pm
